**TERNIENERGIA: Softeco Sismat supported from EU funds for the development of a software for innovative inverters**

- **The digital company, subsidiary of TerniEnergia Group, will take part in the WInSiC4AP project for a total value of Euro 6.4 million with CNR, ST Microelectronics and Enel Distribuzione**

**TerniEnergia**, a company listed on the Star segment of Borsa Italiana, announces that **Softeco Sismat**, the digital subsidiary within the Group, will be among the partners in the research project **WInSiC4AP** (Wide band gap Innovative SiC for Advanced Power) granted by European Union in the framework of the H2020 funds dedicated to the research program of the ECSEL Joint Undertaking, the European public-private partnership for the development of new generation microelectronics components and systems.

**The project will receive a total EU grant of 6.4 million Euro**, involving the collaboration of 24 organisations from 5 European countries, including major research centres and industries such as, among others, CNR, ST Microelectronics, Valeo and ENEL Distribuzione.

The goal of WInSiC4AP is to investigate, develop and validate new components for high efficiency, reliable and cost-effective power electronics applications, which can be applied to innovative solutions in several EU strategic sectors including automotive, railway transportation, energy and aero-space. Softeco will be contributing to the development, demonstration and experimental validation of advanced software systems for the management and control of a new type of inverter and for energy optimisation and intelligent management.

*This press release is also available on the Company's website: [www.ternienergia.com](http://www.ternienergia.com).*

**TERNIENERGIA (TER.MI)**, established in September 2005, and part of Italeaf Group, is the first Italian smart energy company, committed to bring worldwide integrated and sustainable energy solutions. Organized into four business lines (Technical services, Energy management, Energy efficiency and Cleantech), with about 400 employees and a geographic presence in almost the continents, with operational and sales offices, TerniEnergia develops solutions, innovative products and services based on digital and industrial technologies for the energy sector.

TerniEnergia, also through its subsidiaries (Softeco Sismat, Selesoft, Greenled Industry, GreenAsm, Wisave, Ant Energy), shall pursue the objectives of increasing energy production from renewable sources, energy efficiency and emissions reduction, as laid down by European environmental policy, and participates actively in the distributed power generation revolution and energy smart grids.

TerniEnergia is the ideal partner for large utilities, distributors and grid operators, power producers, public authorities, industrial customers and investors who intends to carry out large projects for the production of renewable energy plants and modern systems with high energy efficiency, solutions for the management and maintenance of the infrastructure and the electrical systems. TerniEnergia, through a complete technological and commercial offer, develops and provides technologies, turn-key services and solutions for energy consumers in the public and private sectors. The company is listed on the STAR segment of the Italian Stock Exchange.
